

PENCILWISE

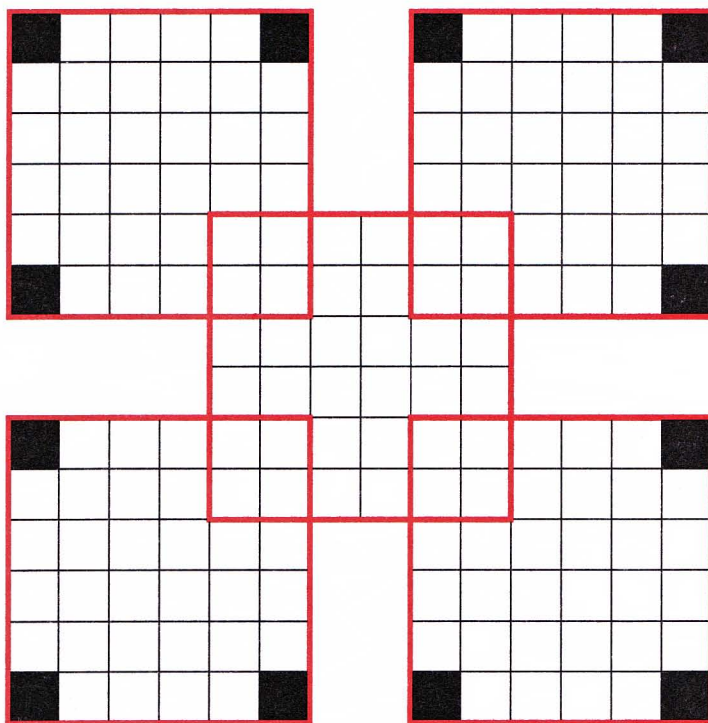

Multicross ★★

By Dave Shukan

The large grid consists of five overlapping 6x6 grids. The 12 clues for each mini-grid are presented in sets beside and below the large grid. However, it's up to you to determine which set of clues belongs to which mini-grid. What's more, the clues in each set are in random order, so you must sort them into Acrosses and Downs. Happy solving!

ANSWER, PAGE 78

1. Another's place
2. Hyundai model
3. Like some bad pitches
