

ROUND 1 HANDOUT -- PIX MIX

Identify the people below by their first and last names. But then, ***instead of writing each name in the corresponding blank, write a one-word anagram of that name.*** The 20 anagrams you are to write in the blanks are also identified – alphabetically by answer -- by the crossword-style clues below, and an example of how this works is given. As a solving aid, the people are presented in alphabetical order by last name, though again you will be entering only the corresponding anagrams (which will not be alphabetical) in the blanks. All answer words appear in Merriam-Webster's online dictionary at www.merriam-webster.com.
